Competitor Guide

Topology

Connection to the VM

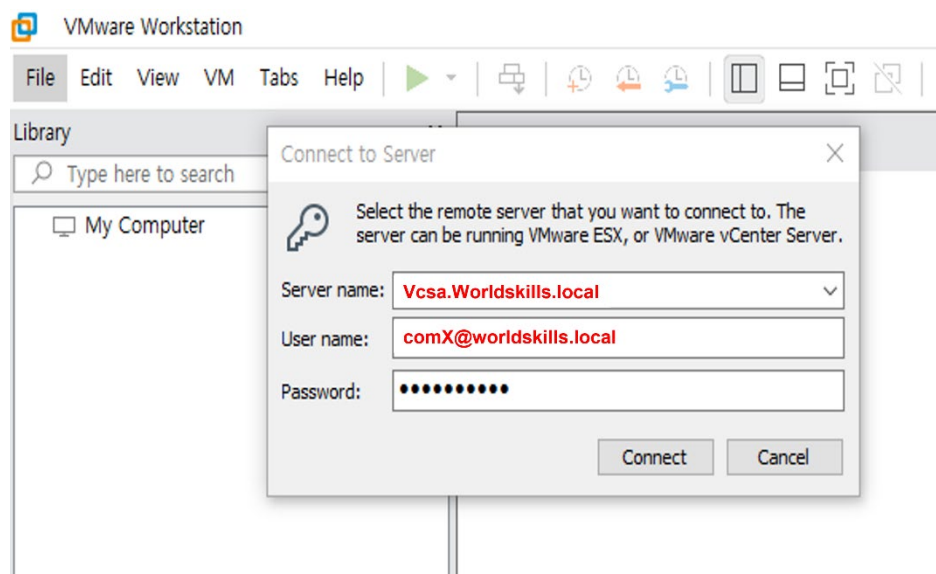

1. The Competitor needs to start the VMware workstation.

2. VMware workstation top menu file, "connect to server..." button.

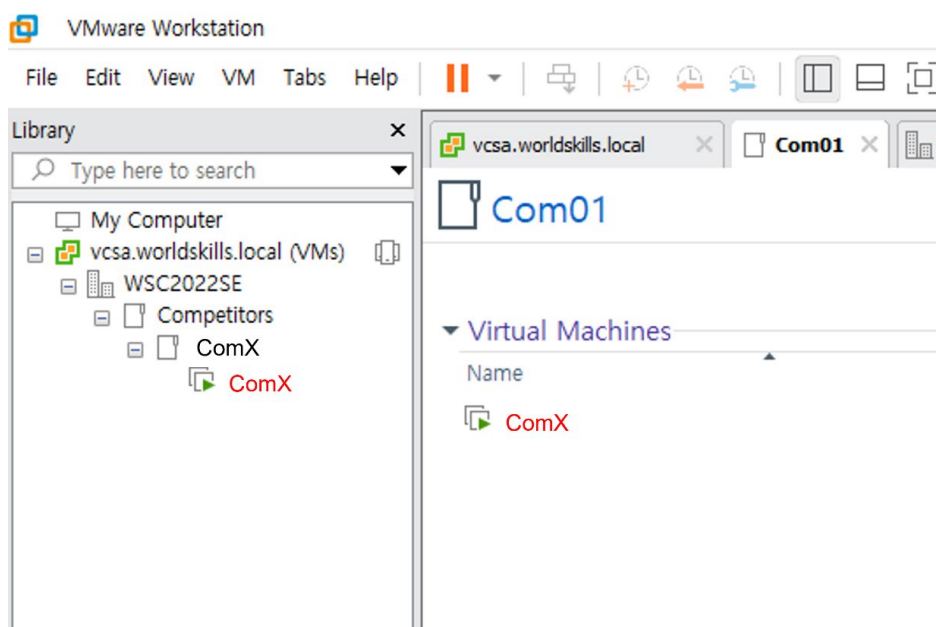

3. Enter your credentials:

- (a) Login: "ComX@worldskills.local" where x is competitor station number.
- (b) Password: "wsc2022.se", after logging in, you are required to change your password.
- (c) Domain: "Vcsa.Worldskills.local" no need to change anything

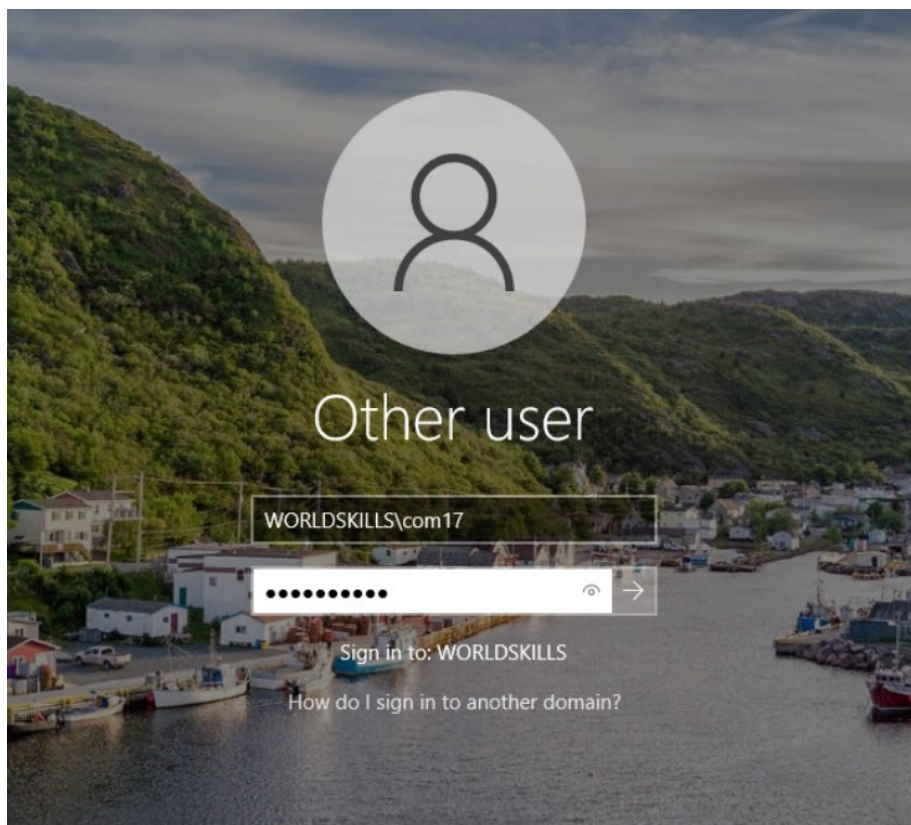

4. After logging in, you will see your vcsa.worldskills.local.

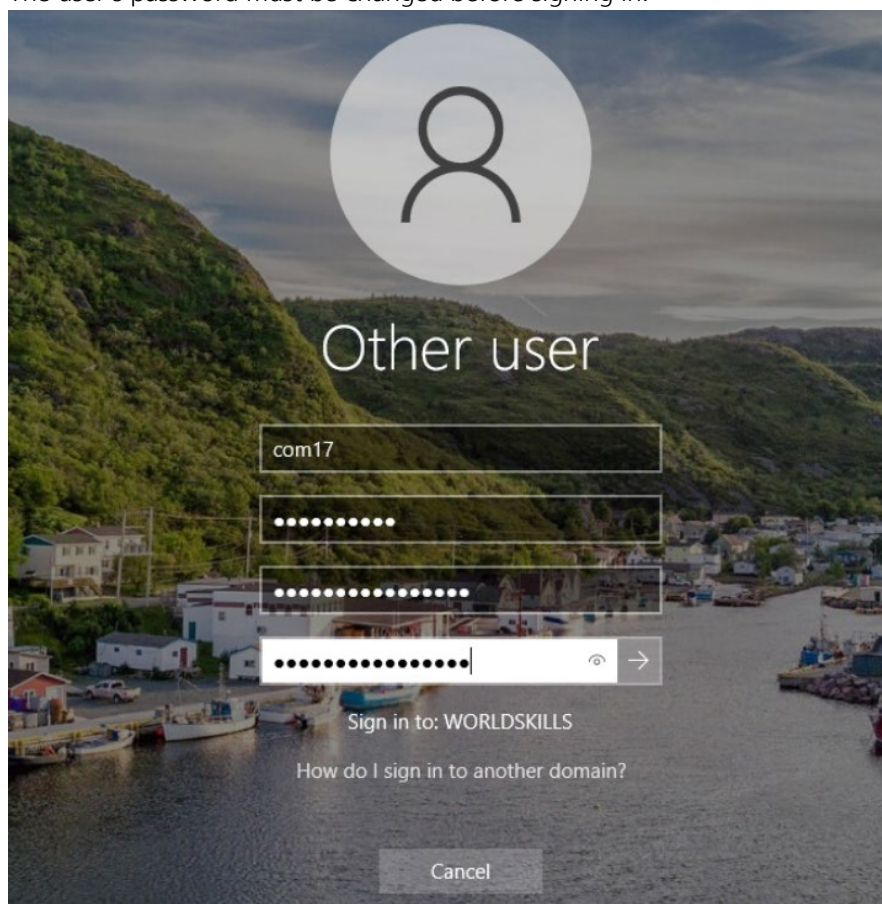

VM could be found inside ComX folder (double click on it)

5. First, you should login with your domain account. Then, change the domain account's password.
Domain user account: **"WORLDSKILLS\comX"** and password **"wsc2022.se"**

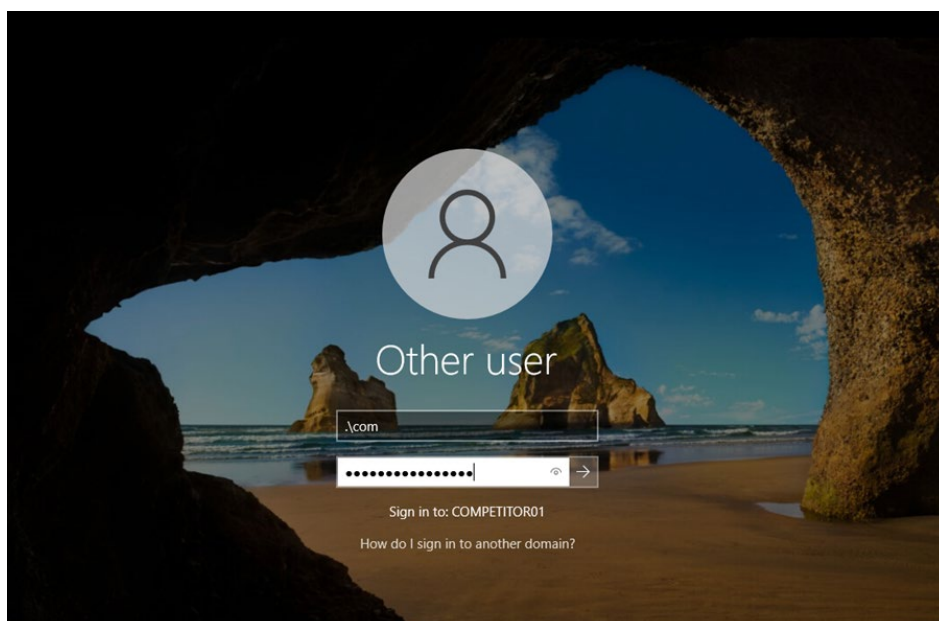

The user's password must be changed before signing in.

6. And please log out of your domain account. Then, login by using your Windows OS as the local user **".\com"** or **"CompetitorX\com"** and password "Worldskills@2022"

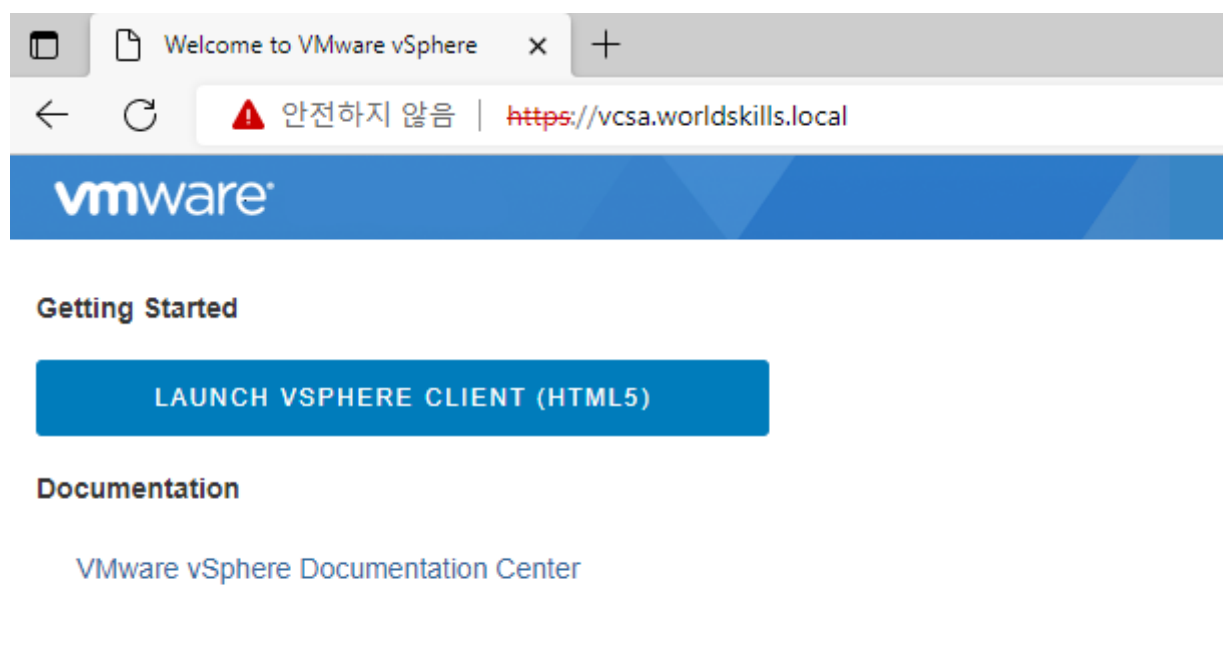

Never change password for local user(.com) !

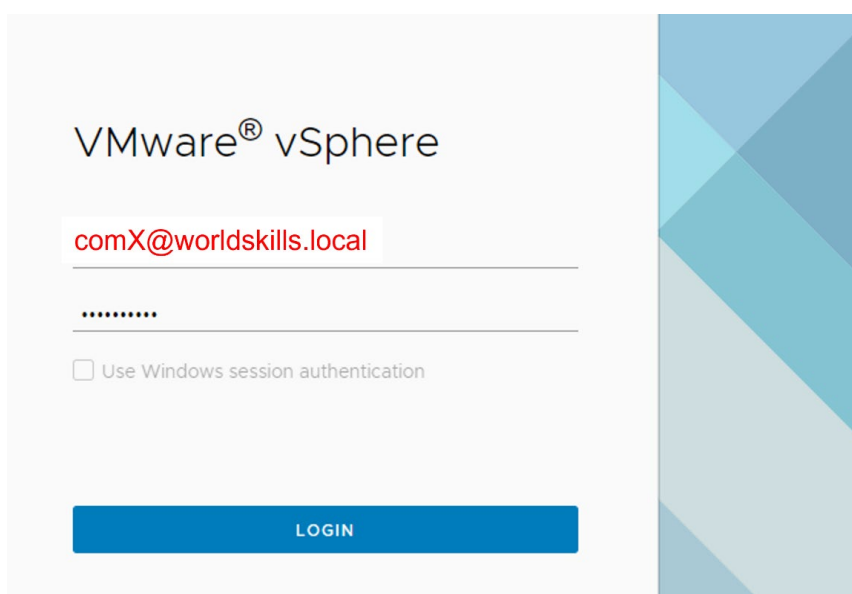

7. Competitor password change

Access "http://Vcsa.Worldskills.local" on web browser.

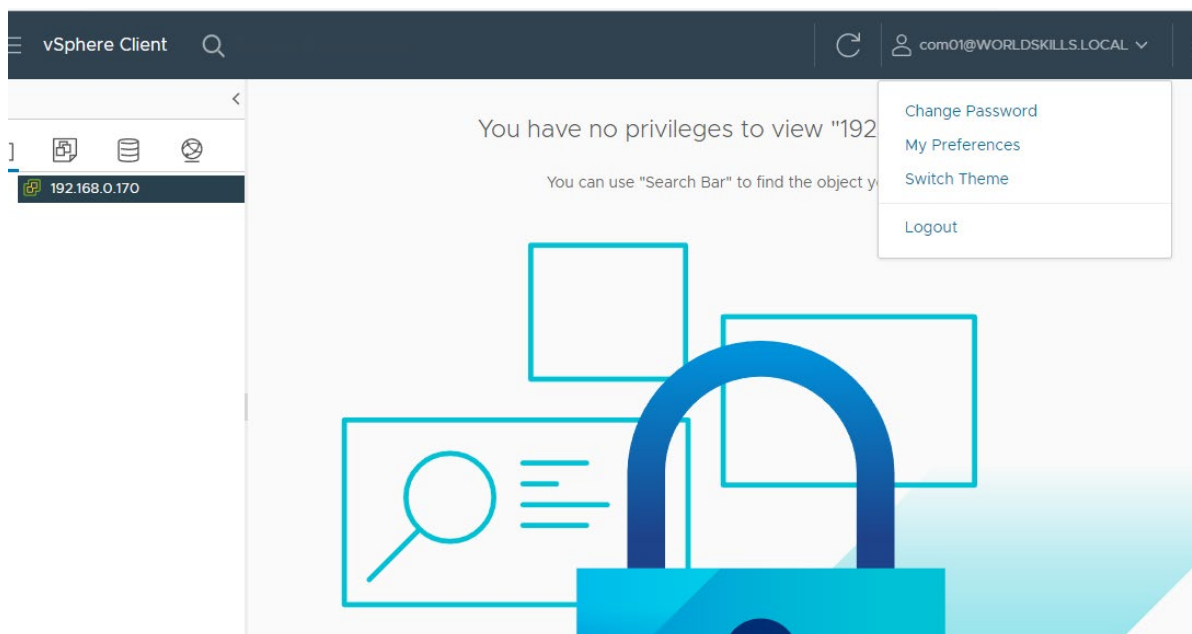

Click LAUCH VSPHERE CLIENT (HTML5)

8. Login

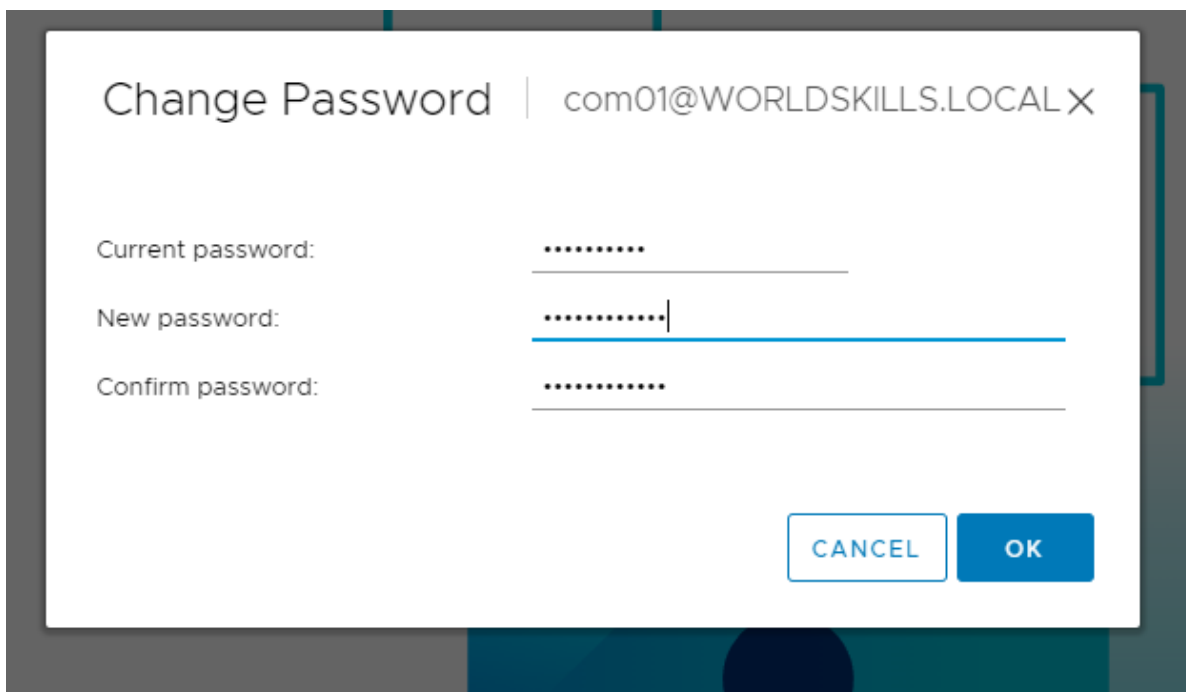

9. Click comX@WORLDSKILLS.LOCAL on top menu, then select "change password":

10. Change password

Password policy: Minimum length 4, maximum length 20, at least 2 alphabetic characters should be included.

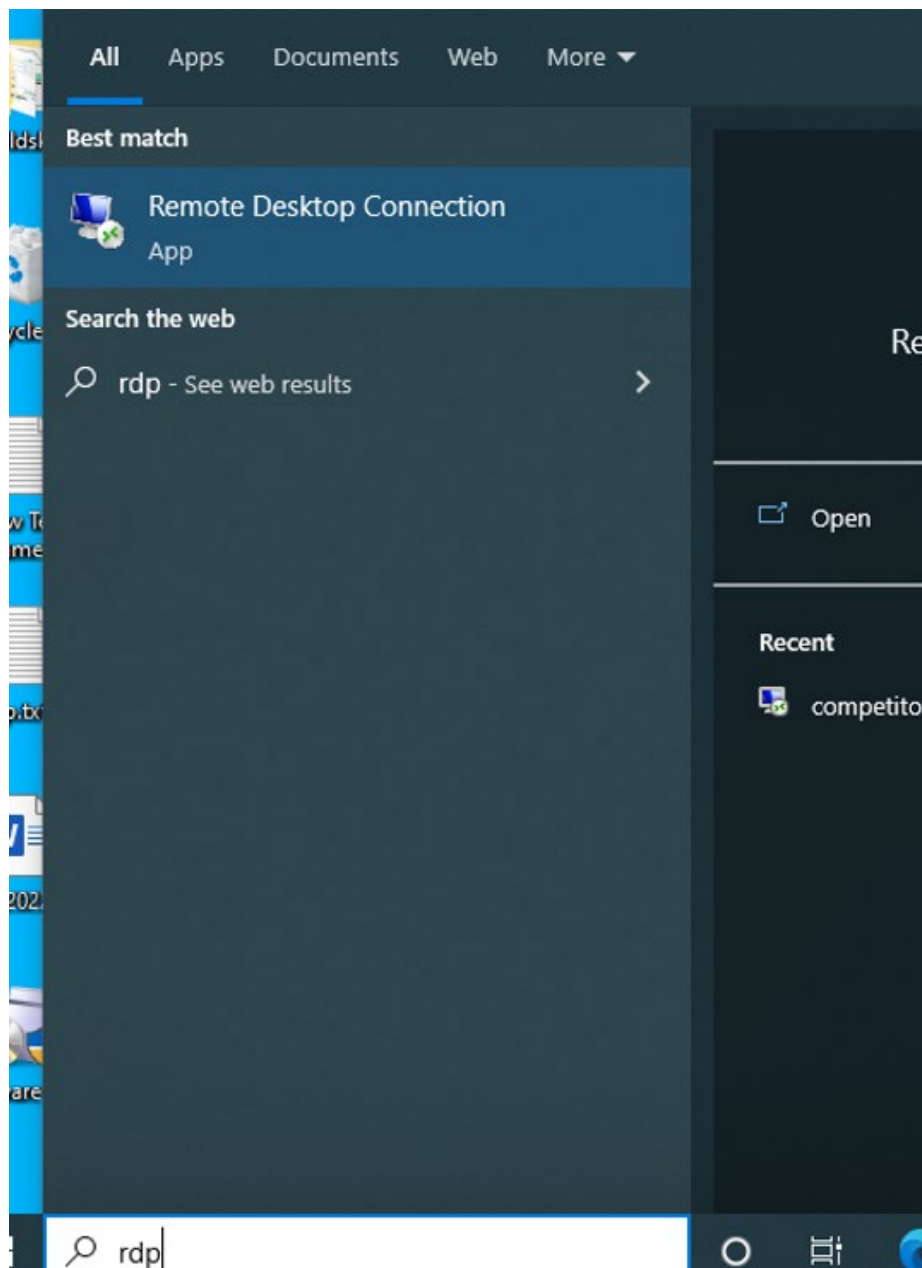

Please change password using the instructions above.

11. Multiple monitor access guide, follow this direction:

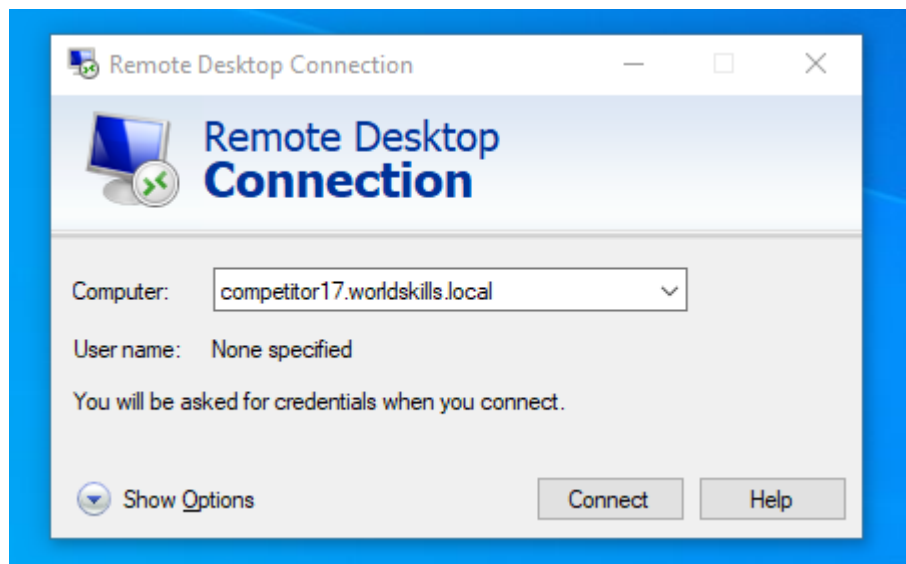

Click window button and find 'search' tab. Search RDP (remote desktop connection).

Activate "remote desktop connection" app.

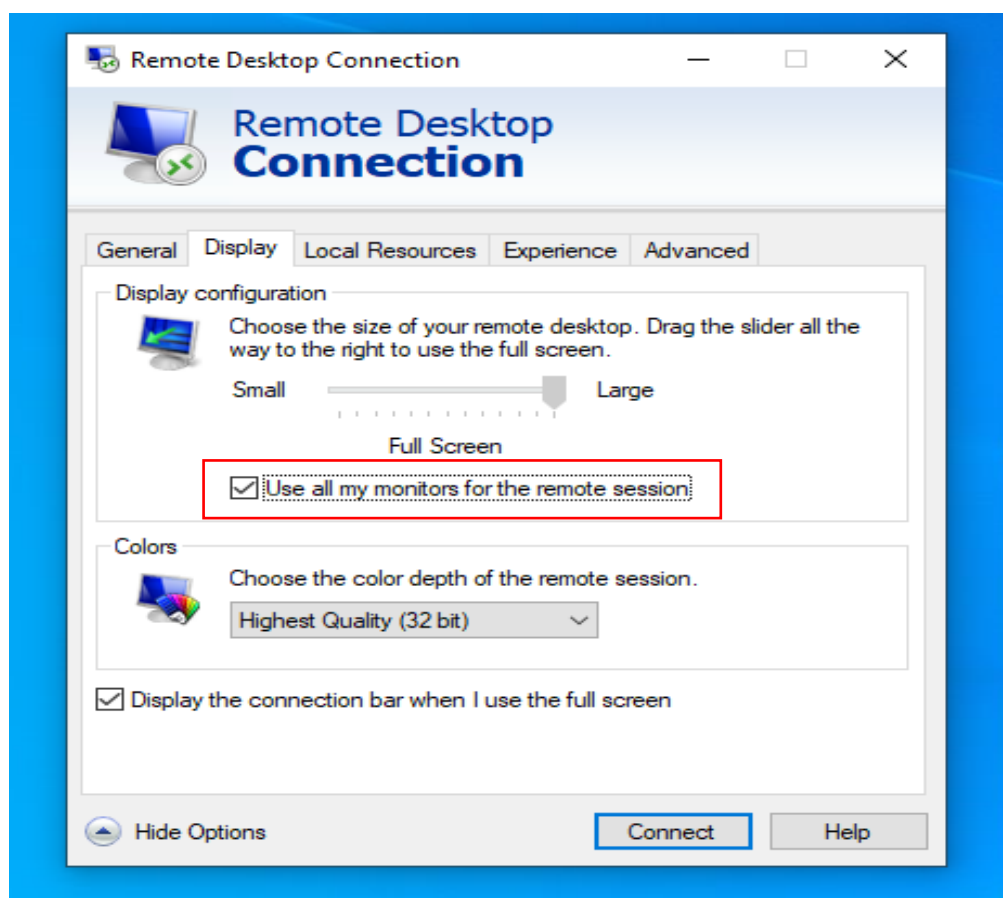

12.Computer: type " competitorX.worldskills.local "

Click Show Options

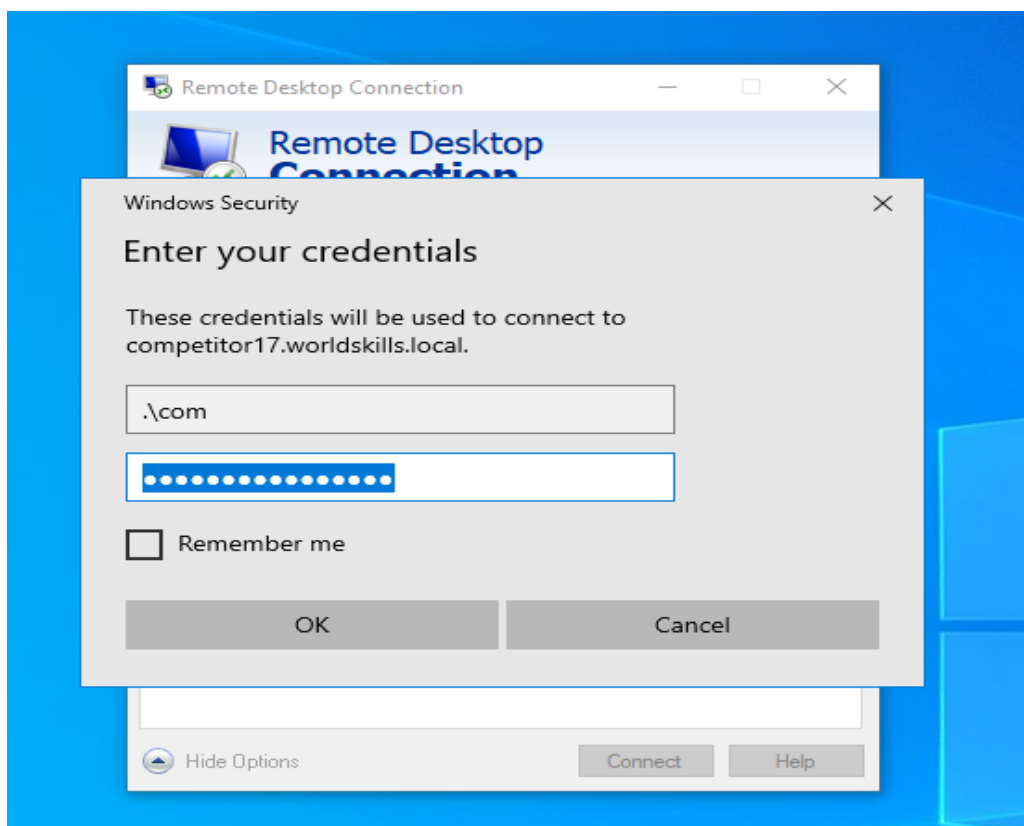

13.Click display tab and check "Use all my monitor for the remote session "

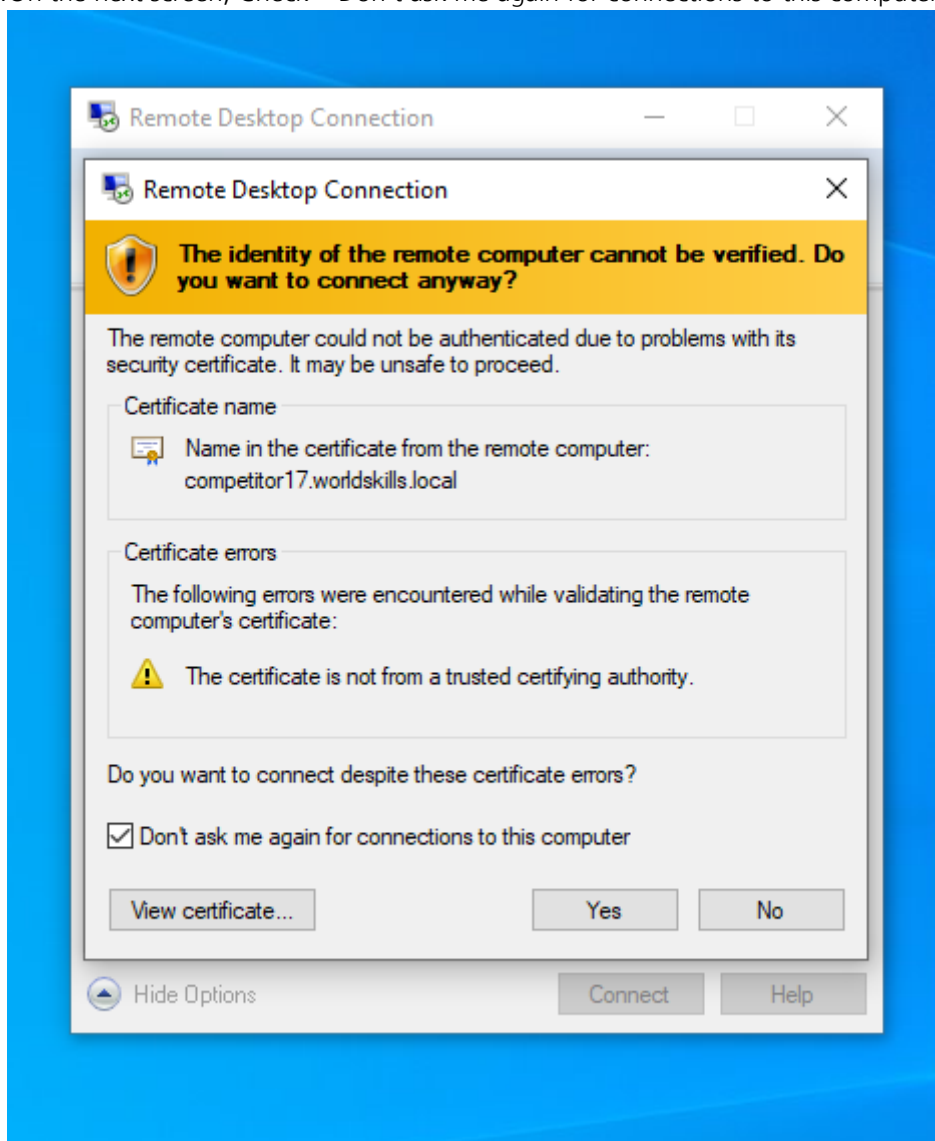

Then click "Connect"

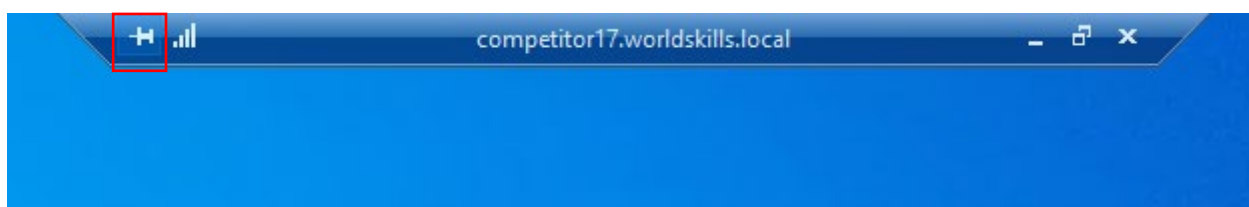

14. Type your local user account. (Once again, NEVER CHANGE local user: .com password please)

15. On the next screen, Check “ Don’t ask me again for connections to this computer” and click Yes

16. In the VM screen, please use full screen mode. Now you can have dual monitors. Click red squared “pin the connection bar”, then you can fix the blue bar.

Connection to Central Hosting Services

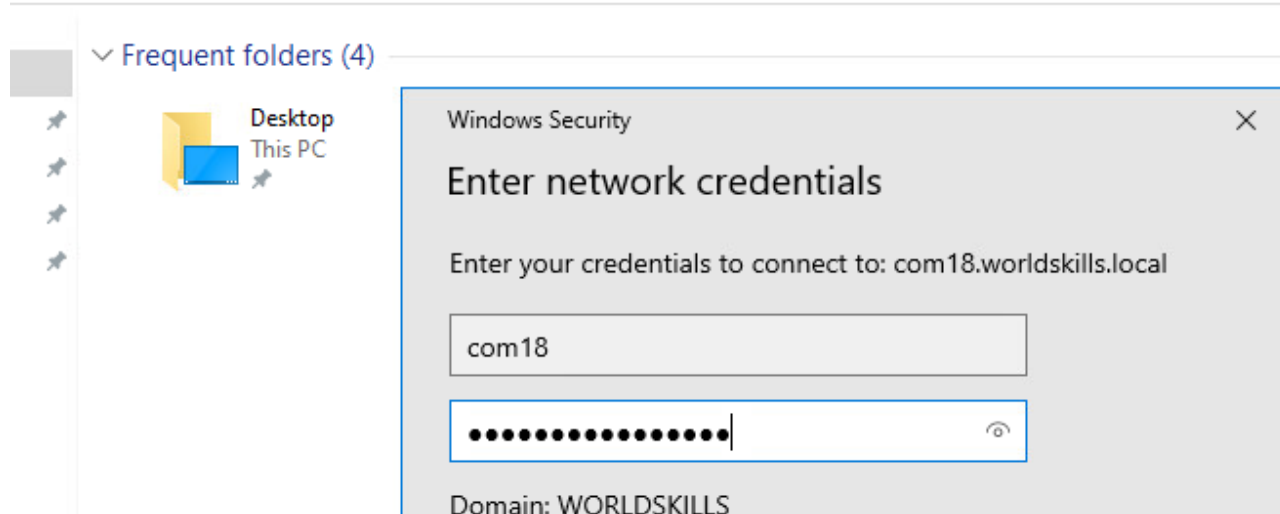

With some tasks, you will be asked to create web services (web API) and to do so you will need to use a central server to do so. You will need to do this in the VM you are given.

1. Connecting your site folder

In Explorer, in the address bar, you need to enter

"\\comX.worldskills.local\homes\comX" (domain credentials)

• \\com18.worldskills.local\homes\com18

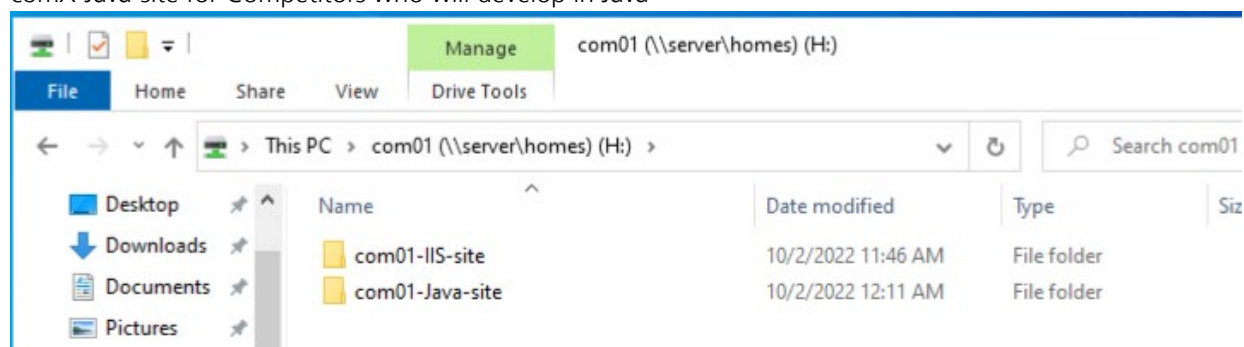

(a) comX-IIS-site

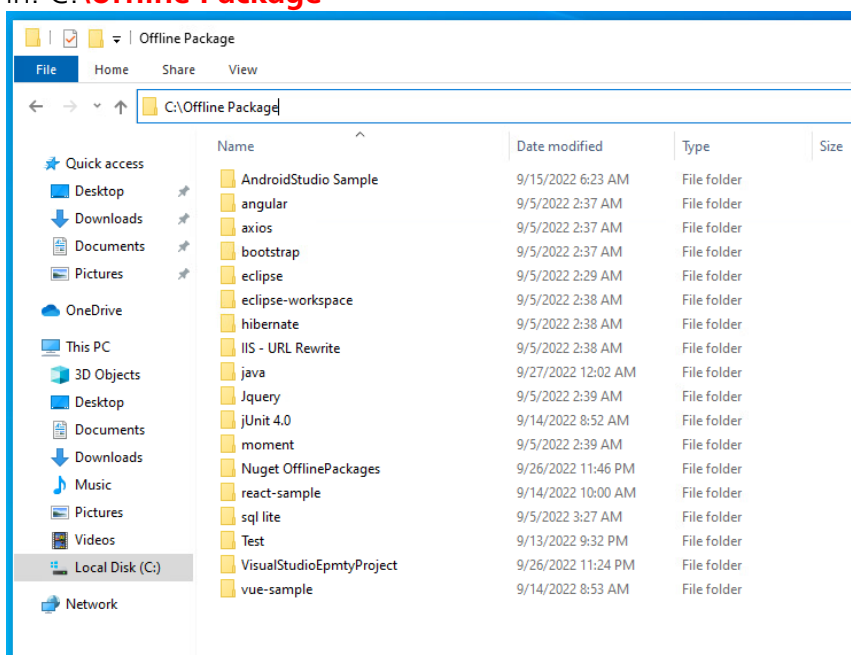

(b) comX-Java-site

(i) comX-IIS-site for competitors who will develop on .NET

(ii) comX-Java-site for Competitors who will develop in Java

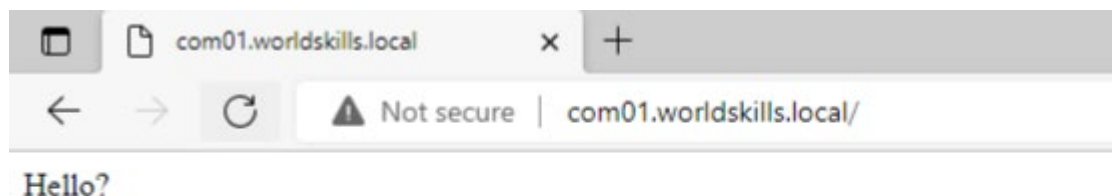

(c) Some packages have been prepared for you to use in your development and are placed in: **C:\offline Package**

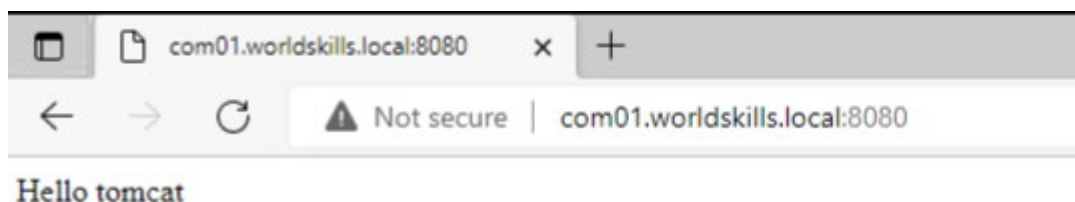

2. Connect to the site in a web browser:

(a) Address for .NET – “**http://192.168.0.X**” (respective IPs on the last page)

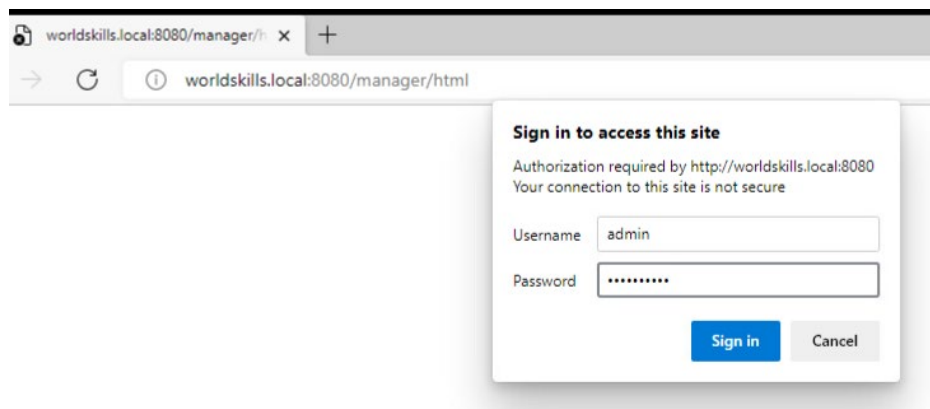

(b) Address for Java – “**http://192.168.0.X:8080**” (respective IPs on the last page)

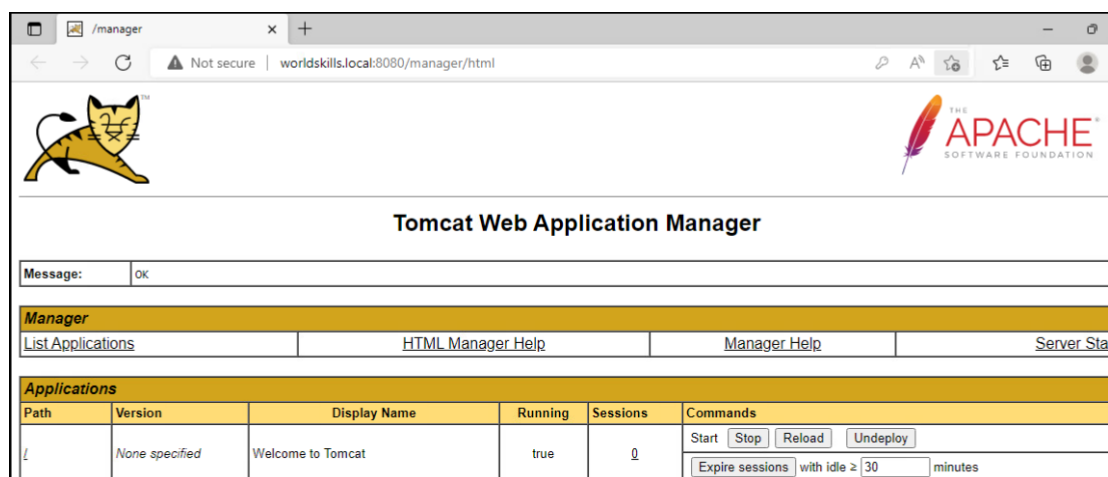

3. To access site management:

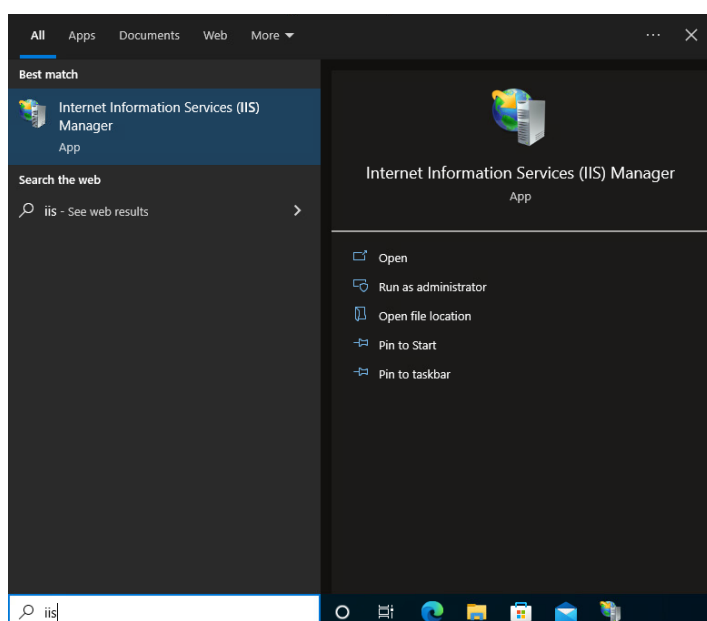

(a) For Java: Open this web-site: “http://worldskills.local:8080/manager”

Use the following credentials: User: “admin”, password: “wsc2022.se”

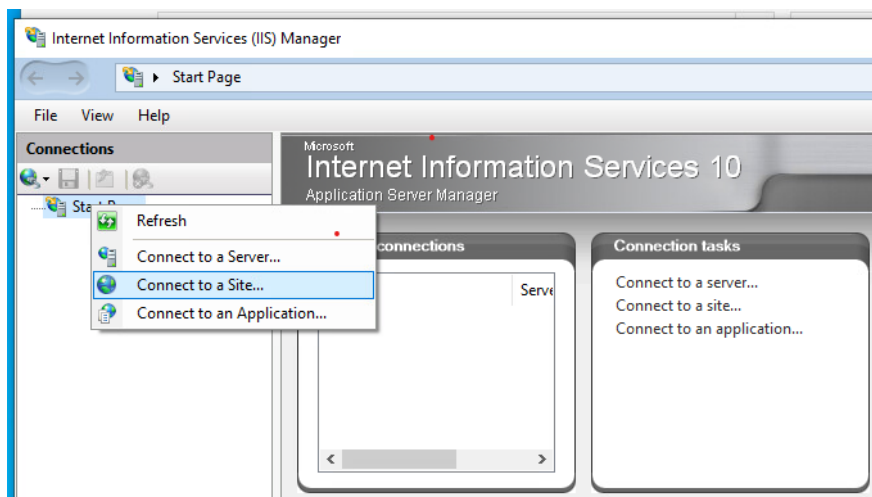

(b) For .Net:

Open IIS as shown below:

- (i) choose "Connect to a Site..."

- (ii) You will be asked for server name and you must enter "**comX.worldskills.local**" , "**competitorX**"

- (iii) Once prompted use the same credentials as you would normally use to connect to your VM

Connect to Site ? X

 **Specify Site Connection Details**

Server name:

Example: localhost, www.site.net, or WESTSRV01:8080

Site name:

Example: Default Web Site or contoso.com

Previous Next Finish Cancel

(Username : **comX** , Password: **wsc2022.se(default password)**) if not changed

Login with the domain user PW that you set

Connect to Site

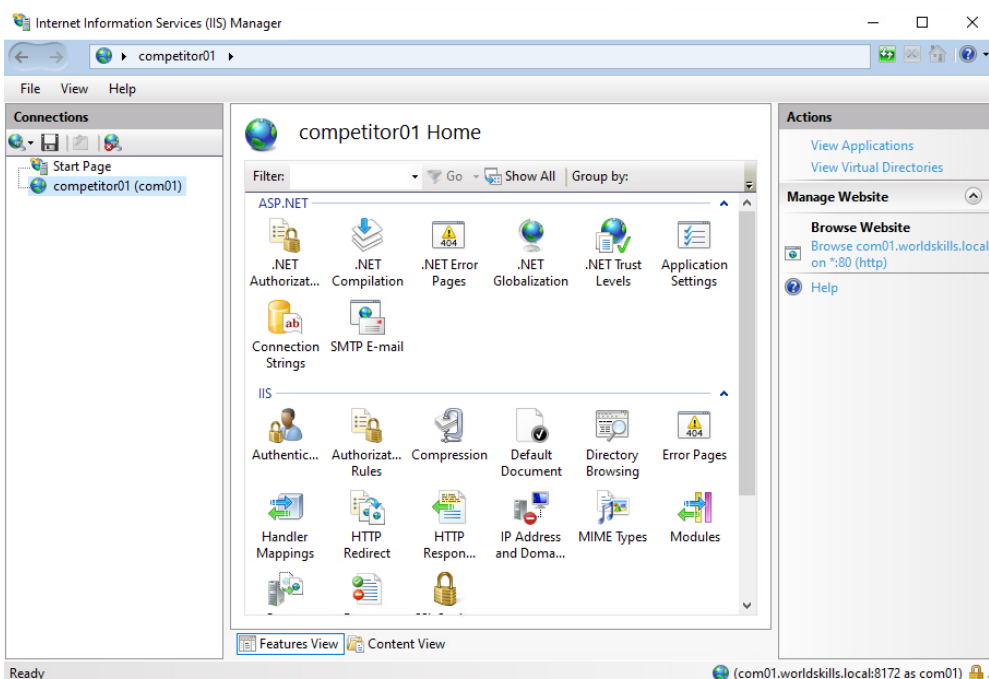

Provide Credentials

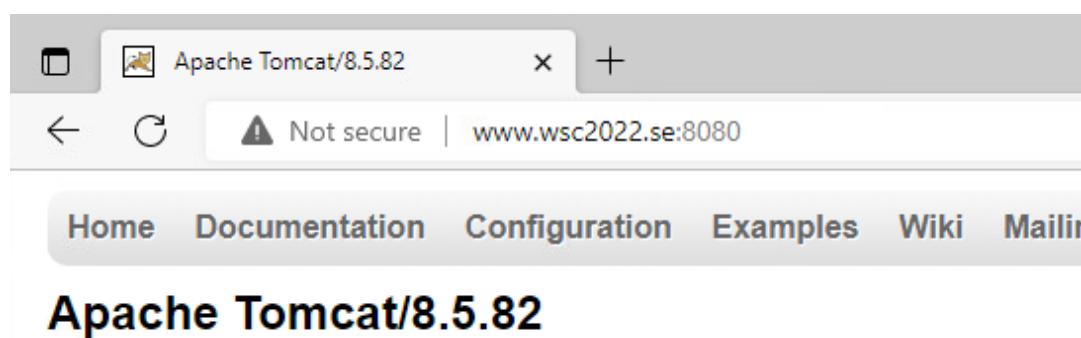

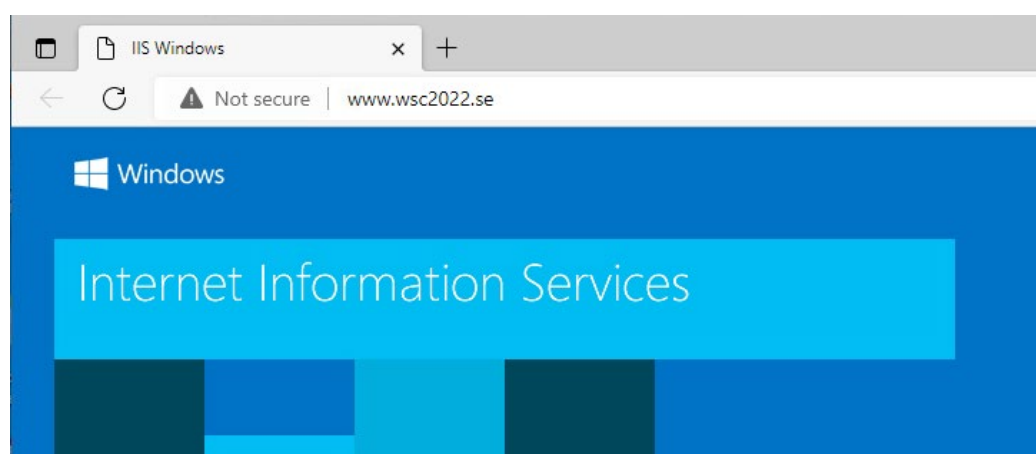

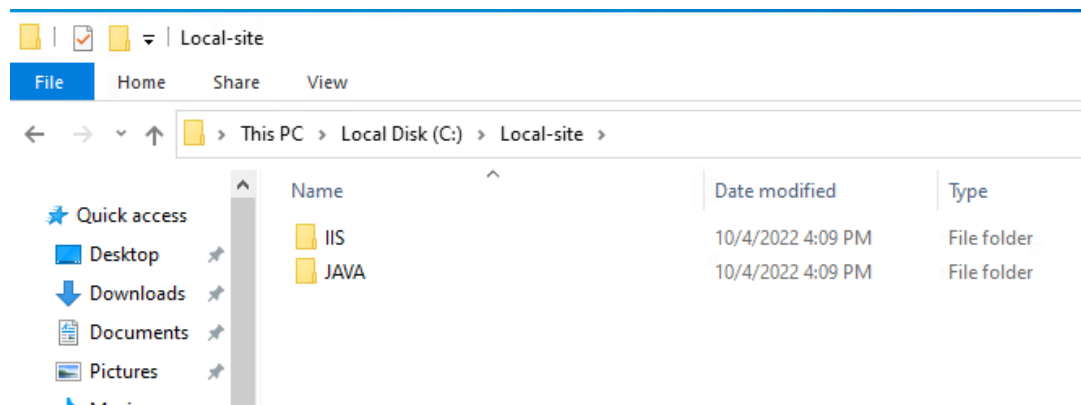

Connecting to "com01.worldskills.local/competitor01".

User name:

Password:

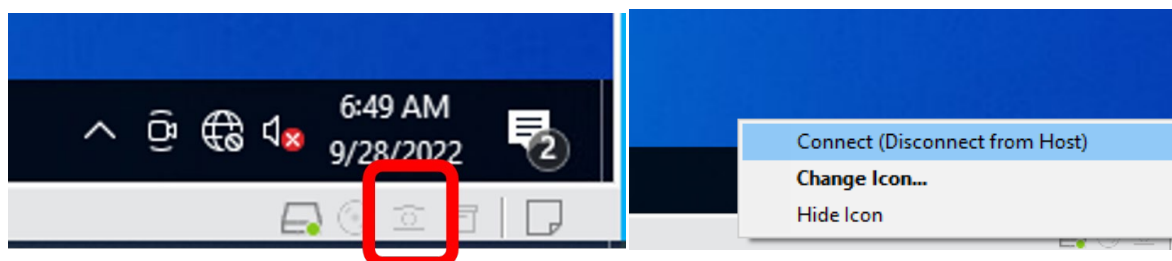

4. When working in local web services, the folder location is “C:\Local-site”
address for – “**www.wsc2022.se**”

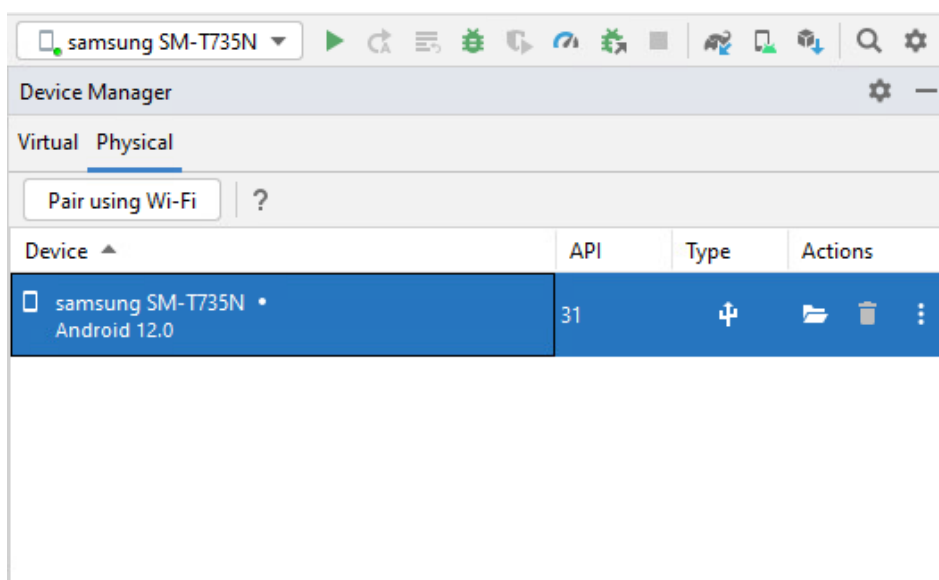

Connection Mobile Device to the VM

1. Right-click the camera icon (The camera icon is under the VMware WorkStation menu.) Then, click "Connect (Disconnect from Host)"

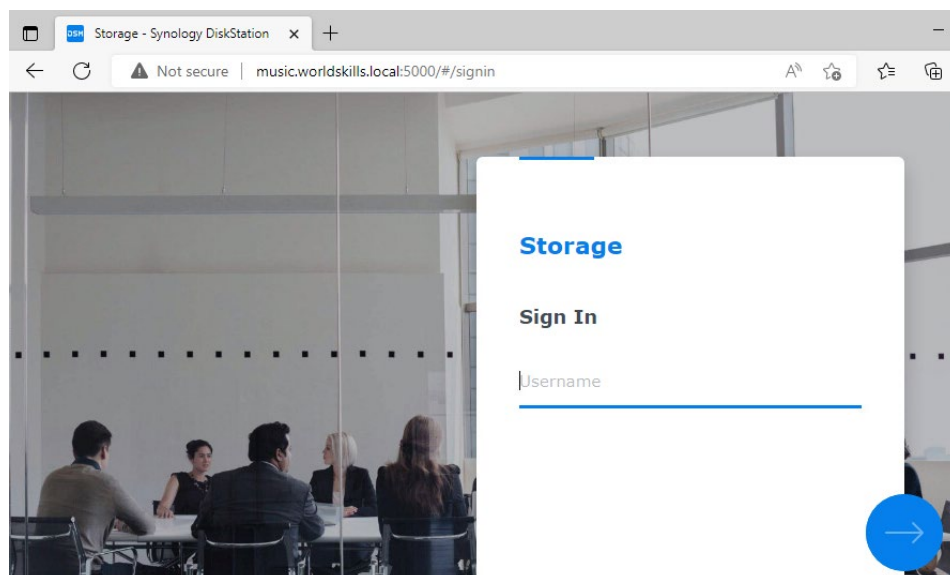

2. You will then be able to use the device as if it was physically connected to the machine in your development environment as shown below:

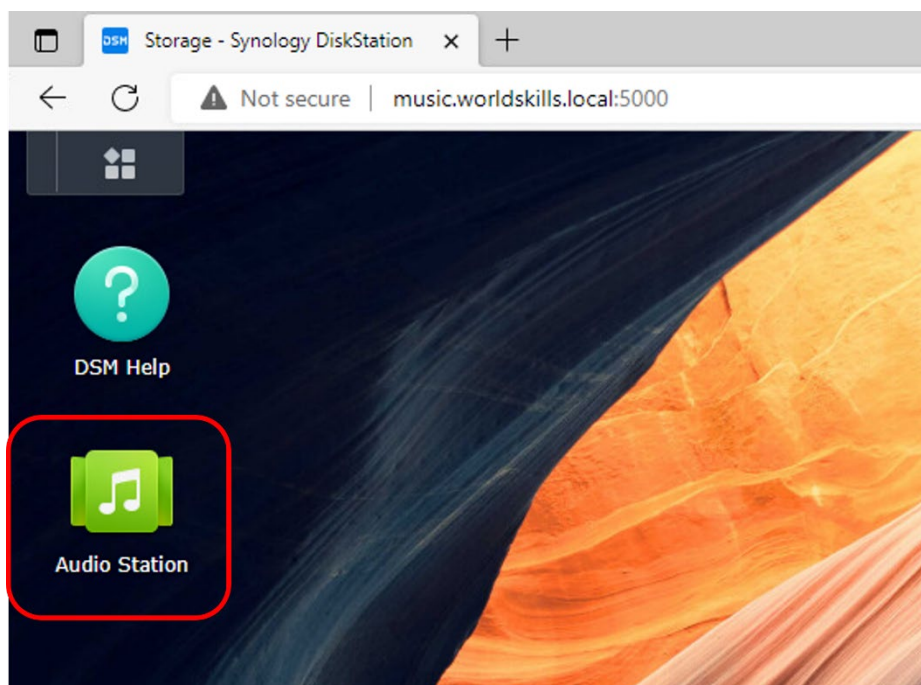

Connection to Radio (Music streaming services)

1. Go to the website "http://music.worldskills.local"

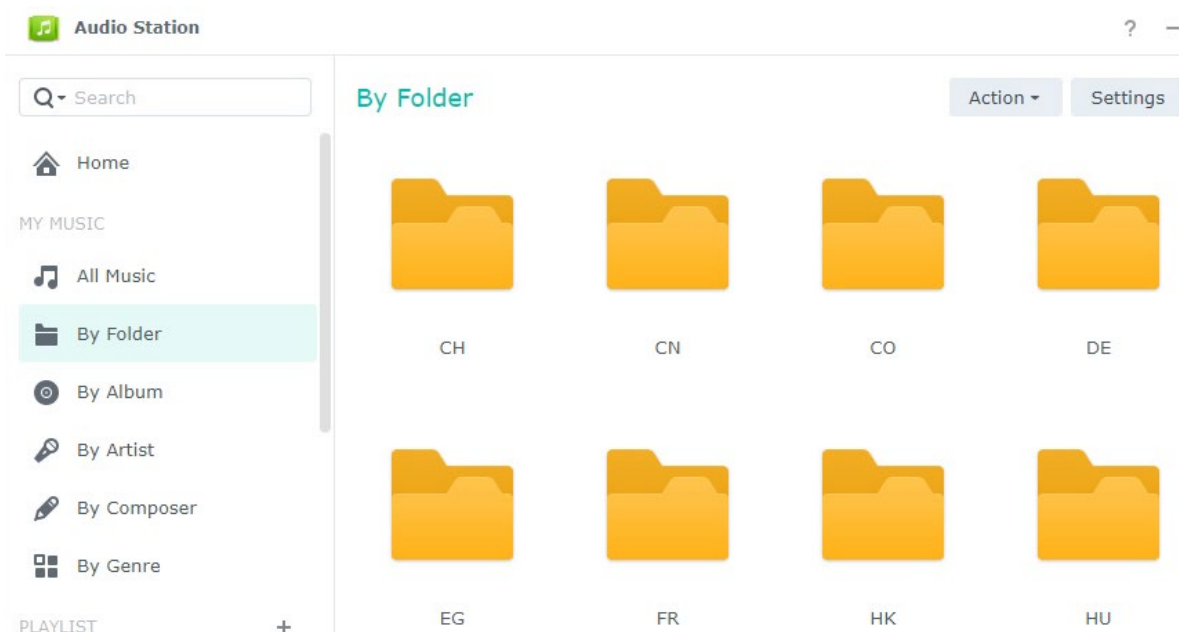

Username : ISSB , Password : Worldskills@2022

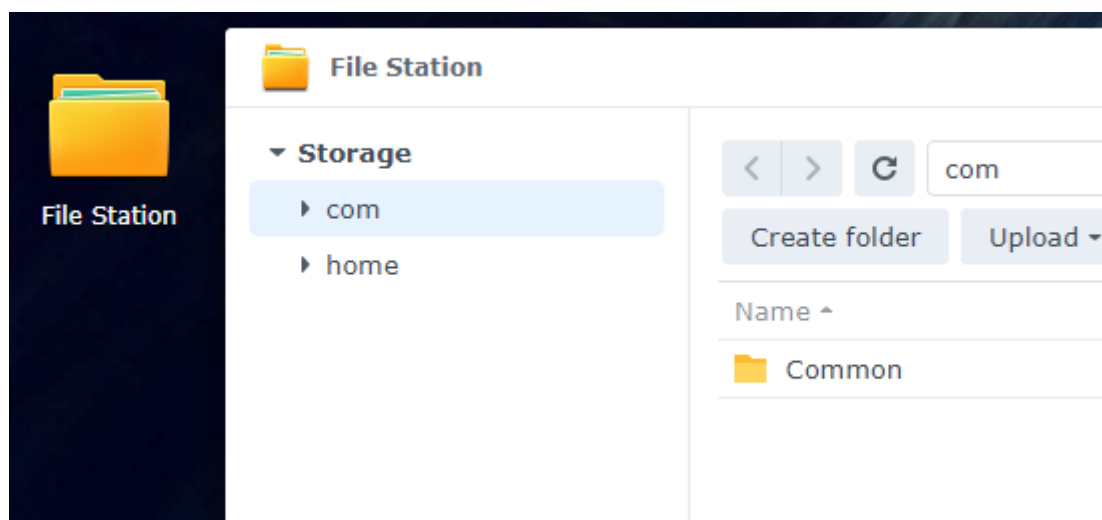

2. Click Audio Station

3. Select **"By Folder"** on the right menu and click your country code folder. Then the song will play.

4. File station - > com folder(can be read only) ->if you need something here, right-click and download please.

Connection to Database server

There's one central server as shown on the topology running both database servers. Each competitor will use their own credentials to access their databases. Please use the following instructions to connect to the database server:

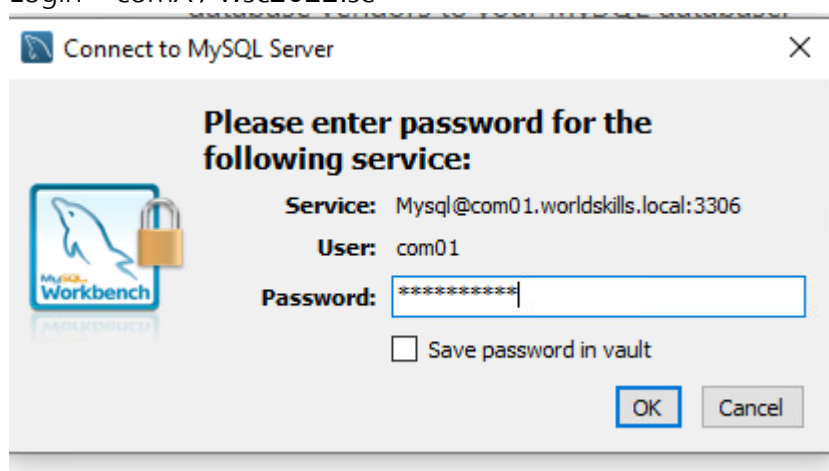

1. Login to Your Windows OS as the Domain user

Open MySQL Workbench or MSSQL Studio Management

2. By using credentials below, you can access to the database.

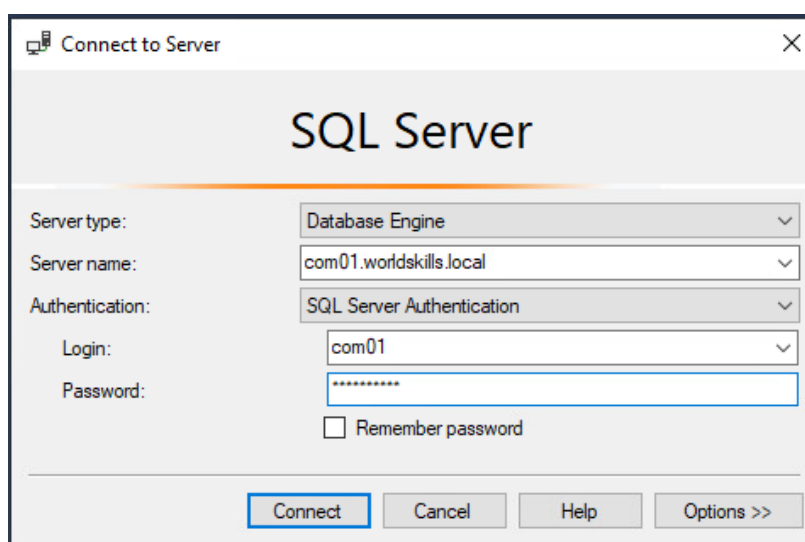

(a) For MySQL: "comX.worldskills.local"

Login – comX / wsc2022.se

(b) For MSSQL: "comX.worldskills.local"

Login – comX / wsc2022.se

Tablet connecting Guide

WiFi SSID: WSC-SKILL-09

PW: 9999@wsc2022se

In order to connect Tablet to Central Server, we should connect tablet with WiFi first. Plz check WiFi SSID and PW written upside.

To connect Tablet with Central Server, you should use one of the following IPs:

Here is your IP address.

DESK NO.	IP
01	http://192.168.0.41:80 http://192.168.0.41:8080
02	http://192.168.0.42:80 http://192.168.0.42:8080
